Shabbat Shalom Brethren,

In preparing this week's News Letter I came across the following scripture:

Ezekiel 20:38 I will purge you of those who revolt and rebel against me. Although I will bring them out of the land where they are living, yet they will not enter the land of Israel. Then you will know that I am the Lord.

I have read similar scriptures before or maybe it was this one on a number of occasions. I hope you all will just pause and consider what Yahweh is saying here. First of all, all of us are going to be brought out of the land where we now live. And those who will not obey the commandments of the bible will be destroyed and they will not enter into the land of Israel. He will purge you out.

How will you be brought out of the land where you now live? It will be by force, most of you will not go voluntarily; a foreign army will force you out. When you read the many scriptures we are about to show you, take note of how many are telling you that you will go back to the Land of Israel from captivity.

If you consider this present Diaspora that our ancestors have lived in since 723 BC and 586 BC, a captivity, then just wait until modern day Assyria puts you and your family into forced labour. That will be captivity when you cannot do your own will and are forced to do the bidding of another with the threat of death ever before you.

I know this flies in the face of the peace and grace and prosperity doctrines that many Christian churches teach, but I am not here to try and keep you in my flock. No the only reason I am here is to show you from your own bible those things your Pastor or Rabbi will not show you and if you leave or stay it makes no difference to me. These things will happen whether you believe them or not. You will be purged as dross is removed from silver, so act accordingly.

Make yourself righteous, and to do that just understand what is said in Psalm 119:172, May

my tongue sing of your word, for all your commands are righteous.

In the DVD which you can watch at https://sightedmoon.com/sightedmoon_2015/?page_id=251 I gave you a scenario about how pestilence could come to our land. I shared with you on that DVD how the USA would default on its bonds, and cause people not to get paid. Read the following articles with this in mind.

This week here in Toronto Canada, we are in the middle of Pride Week. There is nothing here to be proud of. The moral bankruptcy of our nations continues to race into the slime pit of godlessness.

On the other hand I also said in that DVD something about people not working due to them not getting paid. Well this week Toronto garbage collection went on strike just in time for the Gay Rights Parade, and it just so happens to be the hottest week so far this summer. Garbage was piling up on the streets of Toronto and other places on the very first day. The mice and rats will now have a feast. We will see what comes of this. Windsor Ontario is now in its tenth week of a garbage strike. The cities just do not have the money they used to, to give into the demands of the unions. You can read an article in the forum area under the third curse titled Population of rats going to 'explode'.

Also members of this same union who are also on strike are those who look after the water treatment plants. Hmmmm, does anyone recall what was said on the DVD. We have also had one person here in Orangeville die of the Swine Flu. He was at the hospital where my wife works. And it is in the middle of summer. Wait until winter. The third curse of Lev 26 of Pestilence and famine is due to start after Aviv 2010. Are you ready? Do you believe yet?

During the War cycle, Jerusalem will be taken over, and the bombs will begin to drop here in North America. If you are not convinced by then, then you can look forward to eating the flesh of your loved ones. Maybe then you might begin to believe.

On a related subject, Weis research which I have often quoted here in this News Letter, has shown a video of the 20 year and 60 year wave cycle that they have used to go back thousands of years to look at the booms and bust of many economies. Sorry to have to break this to you, but the current trend is for the markets to ascend slightly until the end of 2009 and then continue the decline for three more years until about 2013. The same goes for the US dollar. They are saying that we are in for the perfect storm of economic calamities, in spite of what Washington does.

So hunker down and get ready, this ain't over yet.

California Collapsing by Martin D. Weiss, Ph.D.

Washington and Wall Street seem to be treating California as if it were a sideshow in the financial circus of these turbulent times.

It's not.

California is home to the largest manufacturing belt in the United States and to Silicon Valley, the nation's largest high-tech center.

California is America's most populous state with 38 million people. Its GDP of \$1.8 trillion is the largest in the U.S. Its economy is bigger than those of Russia, Brazil, Canada, or India.

And it's collapsing.

The spores arrived from Kenya on dried, infected leaves ensconced in layers of envelopes.

Working inside a bio-secure greenhouse outfitted with motion detectors and surveillance cameras, government scientists at the Cereal Disease Laboratory in St. Paul, Minn., suspended the fungal spores in a light mineral oil and sprayed them onto thousands of healthy wheat plants. After two weeks, the stalks were covered with deadly reddish blisters characteristic of the scourge known as Ug99.

Nearly all the plants were goners.

Crop scientists fear the Ug99 fungus could wipe out more than 80% of worldwide wheat crops as it spreads from eastern Africa. It has already jumped the Red Sea and traveled as far as Iran. Experts say it is poised to enter the breadbasket of northern India and Pakistan, and the wind will inevitably carry it to Russia, China and even North America — if it doesn't hitch a ride with people first.

"It's a time bomb," said Jim Peterson, a professor of wheat breeding and genetics at Oregon State University in Corvallis. "It moves in the air, it can move in clothing on an airplane. We know it's going to be here. It's a matter of how long it's going to take." Also last week I sent an article to Yair Davidiy. I highly recommend his site and his books. I share that article with you brethren now for your own knowledge.

Shalom Yair,

I have been following the lead of Stephen Spykerman about Manasseh and Ephraim. We had also talked of this over a year ago, so your current discussion was of interest.

Then today in the Trumpet.com was the following article which I found interesting from its point of view.

I share it with you.

Shalom

The Tie That Binds

<https://www.thetrumpet.com/6281-the-tie-that-binds-america-britain-and-israel>

Even those who don't follow theTrumpet.com can see from newspaper headlines that the brotherhood nations of the United States, Britain and Israel are, even now is in the midst of an astonishing free fall from their former positions of world dominance. Coinciding with this precipitous decline in world power and influence is the unraveling relationship that once bound these three brothers so tightly together. The Prophet Isaiah described this dramatic unraveling: "Manasseh shall devour Ephraim, and Ephraim Manasseh; Together they shall be against Judah ." (Isaiah 9:21, New King James Version).

This is clearly happening before our eyes.

Earlier this week, the United States concluded a deal that allowed four Guantanamo detainees to settle in the British colony of Bermuda, without first telling British officials about the arrangement. According to the Independent, Whitehall officials accused the United States of treating Britain "with barely disguised contempt." It quoted one senior official as saying, "This is not the kind of behavior one expects from an ally."

Even as the United States and Britain exchange blows with one another, both of them remain united in their contempt for Israel. President Obama's Cairo speech perfectly summarized Washington's renunciation of any special relationship it once had with Israel.

Britain has followed a similar course for some time now. In December, Gordon Brown wrote a letter to the Palestinian Authority prime minister to express his "frustration" over the settlement activity. That same month, the British government issued an advisory warning to British citizens telling them not to purchase property in East Jerusalem, the West Bank or the Golan Heights-territories 10 Downing Street envisions as a future Palestinian state.

In Israel, the advisory was viewed "as the latest in a series of less-than-friendly steps toward Israel" (Jerusalem Post).

Yet, despite the unraveling ties that once bound these three brothers together, all three nations are inextricably linked together by another end-time prophecy, which points to our simultaneous downfall (Hosea 5:5). Both prophecies, in fact, are closely related. For the weakening of those once mighty ties that bound together the United States, Britain and Judah is only making our peoples more vulnerable to the threat of invasion by ascending world powers!

End of quotes from The Tie That Binds

This week, all we are going to do is read the 700 scriptures that are telling us to go home. As I have said each and every time I have gone back to the Land of Israel I have had some small miracle or something that is unexplainable happen. I suggest you each go back and let Yahweh give you some gift that is special to you and you alone.

It is like this. I grew up in Ontario Canada, but some of my roots are in Corner Brook Newfoundland. Whenever we get off the boat anywhere in Newfoundland it feels like home. And whenever I get together with a bunch of Newfy's it feels like home. Every Newfinlander loves to go back to the rock. Just ask them.

It is the same for the land of Israel. Everyone who has been there is forever drawn back to the land. I do not know why. And whenever I get with brethren who desire a return to the land it too is like being at home. It is our Fathers Home and He is waiting for you to come and visit Him.
